Gentlemen:

Responding to your letter of March 26th, there is no good history of United States coinage. What I suspect your inquirer wants is a list of coins on which premium is paid and such can be obtained from Guttag Brothers, 16 Exchange Place, New York City for about \$1.00.

It might be, however, that the publication of the Treasury Department called, "Catalogue of the Coins, Tokens and Medals in the Numismatic Collection of the Mint of United States," issued by the government printing office, Treasury Department, Document 2612 would meet the need of the case. This has a considerable number of United States coins illustrated, as well as some foreign pieces. I believe the cost of it is not great, but this you can ascertain from the government printing office.

The "Catalogue of the Colonial Coinage of America" by Crosby is the standard one, but this is out of print and sells for \$25 to \$30 per copy.

I trust this will give you the information you desire.

Very truly yours,

Secretary
